Find It Fast
In The
Yellow Pages

"Alas," said John Pennington Gay,
(Whose aim was to marry in May)
"I'm losing the battle,
My love's in Seattle,
Can't see her on my meager pay."

But, being a man of great vision,
John Pennington made a decision.
He rose to full height,
Said, "I'll phone her tonight;
Let Long Distance accomplish my mission."

The outcome we cite with delight;
'Tis sure proof of the telephone's might.
For thanks to Long Distance,
And a lover's persistence,
We invite you to look to the right.

TONIGHT...for less than two dollars...
*
you can talk with friends or
relatives anywhere in the United States,
except Alaska, for three wonderful minutes.
Isn't there someone special
you'd like to call?

When you're calling long distance, you'll find some handy tips to save
you time and money in the introductory pages to this directory.

* Station to station after 6 p.m., plus tax

CALL BY NUMBER...IT'S FASTER!

DIALING LOCAL CALLS

In Joseph City

FOR EMERGENCY AND TELEPHONE SERVICE CALLS SEE PAGE 1

How to use your dial telephone in making local CALLS

1. Know the correct number. If you are not sure of the number, look it up in the directory.
2. Dialing a local call
 - a. Remove the receiver and listen for dial tone—a steady humming sound.
 - b. Upon hearing the dial tone, dial the first two letters and the numeral of the office name and then the remaining four numerals. If the number is not preceded by an office name, dial each numeral in the number.
 - c. When you hear a soft buzzing sound after dialing a number, the telephone you dialed is ringing. Please give the person you are calling time to answer before you hang up. About ten rings (one minute) is usually enough.
 - d. If, after dialing, you hear a steady “buzz-buzz-buzz” it means that the line is busy. To stop the “busy signal” it is necessary to hang up.
3. Suggestions that will help to prevent your calls going astray—wrong numbers or not getting the “ringing” or “busy” signal.
 - a. Turn the dial all the way to the finger stop.
 - b. Completely release the dial after each pull and allow it to return to its original position at its own speed.
 - c. In making a series of calls or if you make a mistake in dialing—hang up momentarily before dialing again. This releases the equipment and gives it time to place the “dial tone” on your line again.

TO CALL ANOTHER PARTY ON YOUR LINE

When the number you wish to call is the same as yours except for the last figure, it indicates the telephone is on your party line. Dial the number in the regular manner. You will hear the busy signal just before dialing the last figure in the number. Proceed to dial the last

figure and then HANG UP. You will then hear the ring of the called party. As soon as the ringing stops, lift the receiver and begin your conversation. If no one answers after a reasonable time, stop the ringing by lifting the receiver momentarily.

Information about long distance calls

To make long distance calls, call or dial OPERATOR (Figure “0”)

Here are some suggestions which can save you money and time

How to save money

CALL STATION-TO-STATION if you are willing to talk to anyone who answers. Station-to-station rates are lower than person-to-person.

CALL PERSON-TO-PERSON if it is necessary to talk to a particular person or to a particular extension telephone or department. Charges are higher than for station-to-station calls.

PLACE YOUR CALL AFTER 6 P.M. ON WEEKDAYS OR ANY TIME SUNDAYS. You make real savings on most calls during these reduced rate periods, especially on calls to more distant points.

PLAN YOUR CALL. It's a good idea, before making a long distance call to plan what you want to say. Then you won't talk longer than you intended or have to call back because you forgot something.

How to save time

Give the name of the town and the state you are calling. Then give the telephone number if you know it. For example: “Washington, D. C., Metropolitan 7-9900.” If it's a person-to-per-

son call, also give the operator the name of the person you want. If you don't know the telephone number, give the name and address and tell the operator whether it's a station-to-station or person-to-person call.

Most long distance calls are completed while you hold the line.

A good idea

CALL BY NUMBER whenever you know it—it's Faster! When you place long distance calls by number, the operator can frequently complete your call twice as fast. If you don't know the number, the operator will give it to you in the course of handling the call—then you can jot it down for use next time. If you'd like a handy booklet for listing frequently-called numbers, “The Blue Book of Telephone Numbers” is free. For your copy, just ask at the Telephone Business Office.

Have a telephone get-together

Have a family reunion or a business meeting by telephone. You can talk to a number of long distance points all at one time. Just dial Operator (Figure “0”) and then ask for the Conference Operator and tell her the numbers you want to contact. This service costs less than you'd think.

Things you should know about telephone service

Emergency calls from party lines

IF YOU NEED THE LINE to make an emergency call, break into the conversation, identify yourself, tell what the emergency is and ask the other parties to please hang up.

IF YOU ARE USING THE LINE when the other party breaks in to say he has an emergency call, please hang up immediately.

Warning

It is unlawful for any person willfully to refuse to yield or surrender the use of a party line to another person for the purpose of permitting such other person to report a fire or summon police, medical or other aid in case of emergency. Likewise, it is unlawful for any person to ask for or request the use of a party line on pretext that an emergency exists knowing that no emergency in fact exists.

Recording of conversations

If you hear a "beep" on the line about every 15 seconds during a telephone call, the person with whom you are talking is recording the conversation by means of an electrical recording machine. The "beep" signal is for your protection. Use of a recorder without this signal is unlawful.

Advertising business telephone numbers

Listing telephone numbers in advertising is a convenient and profitable way for a business firm to place its telephone number before the public. We encourage this, but at the same time it should be understood that the assignment of a telephone number does not imply any property right in that number. The needs of the service compel us to occasionally make number changes. If your number must be changed, we will advise you as far in advance as possible.

Directory accuracy

Every effort is made to keep the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors and omissions from the directory except as provided for in its filed regulations and tariffs.

Improper language

Profane or obscene language over the Company's lines is prohibited. Any violation of this rule may constitute cause for discontinuing service.

Attachments to telephones

Someone is always selling some new gadget or gimmick to hang on the telephone, presumably to improve the service or make it handier. However, most of these devices actually interfere with your service and may put your telephone completely out of order.

The Telephone Company does not sanction any devices except those it furnishes. If your telephone equipment doesn't meet some special need, the Telephone Company can furnish approved special equipment at reasonable rates.

Telegrams by telephone

You may telephone telegrams, cablegrams, or radiograms to the Western Union Telegraph Company—see the listing of that company in this directory—and have the charges appear on your telephone bill. You may also telephone your Western Union telegrams from coin telephones, paying as you would for a telephone call.

Entertaining and educational programs are available for organized groups

Talks and Motion Pictures can be arranged **FREE OF CHARGE** for groups of people, such as schools, fraternal, church, business, trade and professional organizations; and civic and service clubs.

For full information or booking, call or visit your local Telephone Business Office.

Modern homes have Additional Telephones...

Where you need them . . . When you need them

With the accent on convenience, modern homes have *several* telephones. Additional telephones in the kitchen, bedroom and basement save time and steps—let you take or make your calls where you are, not where you wish you were.

And the cost of additional telephones is amazingly low—

ONLY A FEW PENNIES A DAY.

To add a decorative note to your home order additional telephones in COLOR

In the rooms you select, color telephones give handsome testimony to your own standard of good taste. Carefully keyed to modern color preferences by leading color consultants, telephones in color are designed to personalize your decorative scheme, to give you a conversation piece that's as interesting to talk *about* as *on*.

What's more, telephones in color are available in two distinctive styles—the conventional desk or table top model and the attractive, space-saving wall model.

The low one-time cost of color telephones can be paid, if you wish, in small monthly installments.

COMPLETE TELEPHONE SERVICE

Makes YOUR home more pleasant

Today over 100 items of equipment are available to make the telephone in *your* home the most efficient servant imaginable. In addition to those described here, there are many more—each designed to save you time and steps, each tailor-made for your special needs. If you'd like to learn how *you* can enjoy complete telephone service, just call your telephone business office.

Illuminated Dial Telephones

Lift the receiver and the tiny lamp floods the dial with light. Or, a flick of the button on the base of the set and you have a handy, friendly night-light. The ideal telephone for bedside or dimly-lit locations.

VOLUME CONTROL TELEPHONE makes listening easier

A small button on the telephone lets the user adjust the volume to suit himself. A joy for those with impaired hearing. Also especially useful in noisy locations like game rooms.

Personalized Directory Listings

Personalized directory listings are perfect for teen-agers or adults living with you and using your telephone but who haven't a telephone listed in their own name.

COMPLETE TELEPHONE SERVICE

**Makes YOUR office
more productive**

Today's businessman knows that modern telephone service keeps business costs low. By saving time and steps around the office and for order taking and customer contacts, complete telephone service is playing an increasingly important role in daily business life. If you'd like to learn how modern telephone service can help streamline your office procedure, just call us. With no obligation, a trained service engineer will analyze your needs with an eye both to economy and efficiency.

Push-button telephones in COLOR

Modern push-button telephones—in eight handsome colors—give you the convenience of six lines for telephoning. Push-button telephones may be equipped with intercom, bell cut-off and privacy cut-off. When you analyze your push-button needs, check and see if you have enough lines to handle incoming and outgoing calls. Don't give your customers the "busy signal" and don't make yourself wait for an outside line.

Speakerphone

A touch of a button permits the user to talk on the telephone without lifting the receiver. A small desk top unit houses a loudspeaker and microphone... listen and talk, and at the same time keep both hands free for writing or consulting files.

The microphone is sensitive enough to pick up conversations from several feet away, permitting use of the Speakerphone for telephone "conferences." If privacy is desired, Speakerphone may be used as a regular telephone.

Automatic Answering Equipment

This full-time telephone "secretary" answers calls automatically when you're away from the telephone. Automatic Message and Answering Equipment gives your recorded message to those calling—invites caller to leave name, telephone number or other recorded message in return.

Even when you're out, you're always in with Automatic Answering Equipment on the job! It's the perfect solution to the problem of missed calls.

For more information or to order contact your telephone business office

These **YELLOW PAGES** are Your CLASSIFIED TELEPHONE DIRECTORY

In the following Yellow Pages, Business firms and individuals are "classified" according to the kind of business they do. There is a separate Classified Heading for each different business, product or service, for example: Architects, Department Stores, Florists, Sporting Goods, Sewing Machines-Repairing, etc. Classified Headings are alphabetically arranged and the names under each one are also alphabetically listed.

It's EASY to use the YELLOW PAGES!

Here's all you do . . .

1. WHEN YOU WANT TO BUY SOMETHING . . .

Suppose you want a refrigerator—FIRST find the classification "REFRIGERATORS" in the "R" Yellow Pages. Under this classification, conveniently listed for you, are the merchants who are anxious to sell you the refrigerator of your choice. Simply pick out any store or dealer you wish, one whose advertisement attracts you, or who sells the brand you want, or whose location is convenient, or whose name may be familiar or recommended.

2. WHEN YOU NEED A SERVICE OF SOME KIND . . .

Suppose you want a radio repaired, or a dead tree removed or you are moving to a new home—FIRST find the proper classification, such as, "RADIO REPAIRING," "TREE SERVICE" or "MOVERS" in the "R," "T" or "M" pages, then simply pick out the one you want.

3. WHEN YOU WANT TO FIND OUT WHO SELLS OR SERVICES A CERTAIN "BRAND NAME" PRODUCT . . .

If you want to find a dealer for a nationally known product or service, such as a service station handling a particular brand of gasoline . . . FIRST turn to "SERVICE STATIONS" in the "S" pages. Then look for the Trade Mark or brand name of the product you seek. Usually one or more dealers who handle this brand will be listed under the Trade Mark name.

If the particular brand name you are looking for is not listed this way, a quick look through the advertisements within this classification will show what brands the various firms feature.

Because it is so easy, 9 out of 10 people use the Yellow Pages when looking for thousands of other products or services. You can use it too, to learn who in your city, handles a certain product that has been recommended or which you have seen advertised elsewhere.

The Yellow Pages are useful in other ways!

4. PERHAPS IT ISN'T CONVENIENT TO SHOP IN PERSON . . .

Simply select a store or individual merchant of your choice, and call them by telephone. Usually they are able to deliver promptly to your home. Often the ads in these Yellow Pages tell you they are anxious to do so.

5. SUPPOSE YOU REMEMBER THE LOCATION OF A BUSINESS FIRM, BUT HAVE FORGOTTEN THE NAME, OR AREN'T SURE OF THE SPELLING, BUT YOU'D RECOGNIZE THE NAME IF YOU SAW IT . . .

Of course, you know it's very difficult to find anyone in the white alphabetical section unless you know the exact name. Here's where the Yellow Pages can help you—just suppose you want to call the drug store at 25 Cen-

(Continued Next Page)

tral Avenue. Simply turn to the classification of "DRUGGISTS" in the Yellow Pages. Then look through the listed names until you see the address you know or the name which you recognize.

6. EVEN WHEN YOU KNOW THE NAME, IT IS OFTEN EASIER TO FIND IT IN THE YELLOW PAGES . . .

Suppose you want to call Mr. Smith who is a plumber. Just look in your Yellow Pages for the classification of "PLUMBERS." It is much easier to find your Mr. Smith there, among the relatively few "Smiths" who are Plumbers, than in the long list of "Smiths" in the white alphabetical section of the directory.

IT'S EASY TO USE THE YELLOW PAGES! Usually you can find the classification you wish without any difficulty. But sometimes it is hard for us and for the business firms who list their names in the "classified" to know the exact word or phrase YOU are going to think of as the "Classification" when you look in the Yellow Pages for a certain thing.

You might look under "ICE BOXES" which we show as "REFRIGERATORS," or you might look for "ATTORNEYS" which we list as "LAWYERS." We always try to use a classification worded in the way it is most commonly used to designate a business or product, but sometimes there is another way of saying it.

Often we include "cross-references" which are designed to guide you to the right place to look for the desired list, such as "Attorneys, See Lawyers." Sometimes there are no cross-references, so when you look for a service or product and can't find it, try and think of a word or phrase which also describes that service or product.

Sometimes, when you are looking for a specific item, such as a hub cap for a certain make and model of automobile, you may not always find entries under the specific heading of "HUB CAPS." You will usually find many listings of firms who can help you under the more general classifications of which the specific item you want is a part, such as "AUTOMOBILE PARTS & SUPPLIES," "AUTOMOBILE WRECKING" or "AUTOMOBILE REPAIRING."

The Yellow Pages Tell You Where

The Telephone Will Take You There!

It's Easy to use the
Yellow Pages to Find Out

WHERE TO BUY IT
WHO CAN FIX IT
WHAT THEY DO

HOW TO GET PROPER REPRESENTATION IN THESE YELLOW PAGES

If you are in business, you will be giving better service to your customers and prospects if you advertise your goods or services under all headings descriptive of the products you sell or services you render. For details about advertising or additional listings in these YELLOW PAGES, just call your Telephone Company Business Office.

Cordless Switchboard

Operated easily by anyone, this modern board provides centralized handling of calls on as many as five lines. The attractive desk-top case takes little space.

**Conference Service**

Long Distance—the
 Quick, Easy Way to
 Keep in Touch

Want to talk to more than one other person on mutual business affairs at the same time? This use of your telephone service will save time, settle questions promptly, and is economical. Just pick up your telephone and call the long distance operator. She will arrange the details of your conference call.

**Telephone Credit Card**

Here is the key to modern telephone usage. Works like any credit card. When away from home charge your long distance calls to your home or business telephone—no extra charge.

Personalized Directory Listings

Make it easy for customers to call your executives and key personnel after office hours by listing their names in addition to your regular business listing.

SMITH CO. 123 West EX 4-1234
 Brown Wm 3131 Maple ... EX 4-1432
 Smith John 8089 Elm ... EX 4-4321

Yellow Pages

Your advertising in the Yellow Pages will help old customers to return and new ones to find you. Yellow Page advertising works effectively and consistently in your behalf.

YOU CAN SAVE TIME AND EFFORT IF—

You will refer to the advertisements in the Telephone Directory before you shop. Listed for your ready reference are the names of dealers, their street addresses and telephone numbers who offer the products or services you want . . .

*When You Know What You Want
But You Don't Know*

WHERE TO BUY IT

The business firms whose advertisements you will find in this directory are doing their part to assist you in your everyday shopping problems. Through adequate representation they tell you quickly and easily who sells it, whom to call or where to go for the services or products you desire.

Business men and women today are using this modern method of shopping. They find it saves them miles of steps and hours of time.

Your next shopping problem can easily be solved by referring to the advertisements in this Telephone Directory. We urge you to try it.

Building? Buying? Remodeling?

for real livability...

make sure your new home
features the built-in convenience
of concealed telephone wiring

Concealed Wiring (pre-wiring) simply means this:
During construction, a telephone serviceman visits
your new home to run the wires for the telephones
you'll want after you've moved in.

In this way, when you want to add extension
telephones later, there's no inconvenience,
no unsightly exposed wiring to mar the beauty of
your new rooms.

Most architects, contractors and project
builders are familiar with our pre-wiring service.
If yours isn't, be sure to ask that it be included as
a part of your building plan.

If you'd like free assistance in planning the
most efficient, most economical use of the tele-
phones in your home, just call our Home Telephone
Planning Service. We're delighted to sit down
with you and explain how pre-wiring and maxi-
mum telephone convenience go hand-in-hand.

Here's a typical floor plan for a new three-bed-
room home. Note the locations that were pre-
wired for extension telephones during construc-
tion, locations that provide maximum telephone
convenience wherever you are in the house.
